### B. METHOD OF MEDITATING BIBLE VERSES

Christian meditation has the following parts:

**1. Think.**

*Think* about the meaning of the different words.

Ask yourself questions like: Who? What? Where? When? Why? How?

**2. Pray.**

*Pray* to God and ask him what he intends to say to you. In your prayer, discuss with God the meaning of the truths and the possible applications. Respond to what God is saying to you.

**3. Relate.**

*Relate* the truths in the Bible verse to your personal life or to the world in which you live.

Ask yourself the following questions: "What is my need in the light of this verse?" "Which truth renews or strengthens me?" "What does God want me to know or believe or be or do?"

**4. Write.**

*Write* the most important thoughts of your meditation in a notebook.

### C. METHOD OF MEMORISING BIBLE VERSES

Memorising verses (chapters or books) of the Bible has the following parts:

**1. Choose** a system that you want to use for your memorisation of Bible verses: cards or a notebook

**2. Meditate** and understand the Bible verse before you memorise it.

**3. Write** the Bible verse on a blank card or on one page of your small notebook as follows:

- Write the topic or title on the first line.
- Write the Bible reference of the verse on the second line.
- Draw a line and then write the text of the Bible verse line for line beneath that.
- Write the Bible reference of the verse at the bottom of the page and on the back of the card.

(1)

For example:

Assurance of salvation John 10:28
I give them eternal life, and they shall never perish; no one can snatch them out of my hand
John 10:28

John 10:28
------------

**4. Memorise** the Bible verse in the right way.

- Always START with the topic or title, the Bible reference and the first line of the Bible verse.
- When you can quote this without a mistake, ADD the second line of the Bible verse and REPEAT FROM THE BEGINNING, that is, the topic, the reference and the two lines of the verse.
- When you can quote this without a mistake, ADD the third line of the Bible verse and REPEAT FROM THE BEGINNING, that is, the topic, the reference and the three lines of the verse. Etc.
- Do not memorise the Bible verse in separate pieces, because in that way you do not memorise the links between the pieces. Always start from the beginning, each time you repeat the verse.
- Always END by repeating the Bible reference once more, because the Bible reference is the most difficult part to remember.

Thus, the right sequence for Bible memorisation is:

- the topic
- the Bible reference
- the text of the Bible verse
- and the Bible reference again.

#### D. METHOD OF REVIEWING MEMORISED BIBLE VERSES

Reviewing previously memorised Bible verses has the following parts:

##### **1. Review the new memorised Bible verses.**

Review means to repeat the last 5 Bible verses you have memorised once every day. Repetition is the best method to remember Bible verses and to quote them accurately. Therefore, review the last 5 Bible verses you have memorised at a minimum of once a day for the duration of 5 weeks. Thus, you review every new Bible verse about 35 times before it comes into the 'back-review' system.

##### **2. Review the old memorised Bible verses.**

"Back-review" means to review all your previously memorised Bible verses once every 3 weeks. Back-review is the best method to remember all the Bible verses you have previously memorised. Therefore, for every 100 previously memorised Bible verses, back-review 5 of them every day. Thus you back-review all these previously memorised Bible verses once every 3 weeks.

##### **3. Keep cardholder at hand.**

Carry your memorisation cardholder or your memorisation notebook with you to work. Use travelling time and spare moments during the day for review, meditation and prayer. Review the last 5 Bible verses you have memorised. Back-review some Bible verses you have previously memorised. Meditate and pray about the contents of these verses.

##### **4. Check accuracy.**

Check one another to see whether you still know the Bible verses that you have memorised accurately. During every group meeting, divide into twos and check one another's last memorised Bible verse. Also once in a while, divide into twos and check one series of 5 Bible verses that you have previously memorised. Check one another to see whether you still know the topic or title, the Bible reference as well as the whole Bible verse *without one mistake*. As a cue, sometimes give the topic or title, sometimes the Bible reference and at other times only the first few words of the Bible verse.
